

Dodds Collection

This collection was received in 2016 following the death of John Dodds from his widow Shirley thanks to the intervention of a family friend, Jean Oxford, who recognised the archival value of the collection.

The collection was created during John's work with W K Pirt on the book *Lead Mining in the Derwent Valley* (Northern Mines Research Society) (ISBN 0901450553) – also held by the Institute (Elizabeth Lawson collection).

Some photocopies and duplicates were weeded and the collection was organised and listed as below:
